

Harvest Operations Corp. is a diverse energy company, based out of Calgary, offering exposure to conventional upstream oil and natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets. Harvest is committed to protecting the health and well-being of our people, the public and the environment through every decision and action taken each day.

Harvest has an immediate opening for a **SCM Specialist – D&C**, reporting to the Team Lead, SCM. This is a contract position based out of the Calgary office.

Key Responsibilities:

- Collaborate with various stakeholders to assist in the development, implementation and execution of sourcing and procurement activities that are strategically aligned with the SCM strategy and Harvest's corporate objectives
- Prepare project strategy documents, issue and evaluate RFP's, RFQ's, based on business needs
- Continuously evaluate and investigate savings and improvement opportunities
- Communicate and resolve issues with internal and external stakeholders
- Assist in performing market research, benchmarking, and cost analysis
- Assist with reporting on performance and provide comprehensive and in-depth analysis when requested including spend analysis, cost recoveries and/or avoidance, rate comparisons and other potential savings opportunities
- Collaborate with field staff to ensure satisfaction amongst all stakeholders

Qualifications:

- Bachelor's degree and/or SCMP designation preferred
- Minimum of 5 years' in upstream oil and gas with experience in sourcing materials and services associated with Drilling & Completions and Projects.
