

Harvest is one of Canada's largest energy companies offering exposure to upstream oil and natural gas production and downstream refining and marketing operations. We are focused on identifying opportunities to create and deliver value with an active acquisition program and a technical approach taken to maximize our assets.

As a dynamic and growing organization, Harvest has an immediate opening for an experienced environmental professional in the position of: **Environmental Coordinator**. Reporting to the Environmental Team Lead, this position will be responsible for coordinating the environmental aspects of Harvest's in-situ oil sands project in northern Alberta. Key responsibilities for this position include:

- Coordinating and overseeing the filing of regulatory applications.
- Ensuring compliance with relevant environmental regulations and approvals.
- Providing advice on environmental project considerations to management, engineering and regulatory teams.
- Participating in regional environmental management initiatives.
- Monitoring corporate environmental performance through the design, construction and operational phases of Harvest's in-situ (SAGD) oil sands project.
- The position will also include some project management work focused on the remediation and restoration of conventional oil and gas assets.

The successful candidate will have a university degree from an accredited environmental program accompanied by a minimum of 5 years environmental project management experience in the oil and gas sector. Preference will be given to those candidates with a broad knowledge of in-situ oil sands environmental and regulatory issues as well as experience with Alberta Environment's EIA application process. Strong interpersonal skills, oral and written communication skills and organizational skills are required.

The position is a one year contract based out of Calgary that will require occasional travel to northern Alberta.

Harvest is committed to providing ongoing professional development and opportunities for career advancement. Please visit the Harvest Energy website at www.harvestenergy.ca to learn more about our company.

We sincerely thank those who apply, however, only those applicants selected for an interview will be contacted. Please send your resume and cover letter by September 8, 2010 to:
