

Harvest is one of Canada's largest energy companies offering exposure to upstream oil and natural gas production and downstream refining and marketing operations. We are focused on identifying opportunities to create and deliver value with an active acquisition program and a technical approach taken to maximize our assets.

Harvest is looking for **Field Summer Students** to fill field positions for a 4-month term (May to August 2012). This is an excellent opportunity for Industry related students to gain valuable field experience. Harvest supports and promotes a learning environment for all students.

Responsibilities:

- Ensure safe and efficient operation of all process equipment
- Daily plant and well readings
- Daily input and balancing of data into PVR
- Assist with optimizing daily well production and fluid levels
- Routine housekeeping and minor repairs of equipment
- Demonstrate awareness and commitment to safety and regulatory compliance
- Vacation relief for full time staff
- Shift work (including evenings and weekends) may be required

Qualifications:

- 1st, 2nd or 3rd year of an engineering degree program or 1st year of a related two year technical program
- Valid Class 5 driver's license
- Strong communication, organizational and team skills
- Computer literate
- Positive attitude towards learning
- Confident with a strong work ethic
- Ability to successfully acquire sponsored driving and basic safety training certifications

Harvest has positions available in the following locations:

Alberta: Provost, Macklin, Lloydminster, Red Earth (camp-based), Wainwright, Hardisty area, Stettler, Grande Prairie and Medicine Hat

Saskatchewan: Kipling

British Columbia: Hay River (camp-based)

Please send your resume and cover letter to:
